

A COVID Update from Align Foundation Repair

Your health and the integrity of your home is our top priority. We have been deemed an essential service by the CDC and we are making sure to adhere to all guidelines set in place by the CDC at this time. We are dedicated to the health and safety of all of our customers and employees. We are open and taking appointments and we are continuously grateful for your support.

In accordance with local health safety guidelines we are:

- Washing our hands thoroughly before each and every appointment.
- Wearing face masks on all properties
- Not shaking hands, but rather greeting you with a smile
- Wiping down and sanitizing any tools before entering your home
- Wiping down exterior door handles if we happen to touch them
- Carrying hand sanitizer with us to every job site

In addition to these guidelines, we are not using any paper materials when visiting your house. All documents can be signed and submitted electronically so there should never be a need to contact anything from us. We have stopped handing out business cards, but if you would like one please ask and we will provide you with our information.

Most of our jobs do not require entry into the home or property, but if we do, we are making sure to wear proper face coverings and remain distant. If you have any further questions, regarding our policies on health and safety guidelines, please give us a call. We would be happy to address any of your concerns and we hope you are all safe and healthy during this time.
